SURYA VINYL PVT.LTD.

PEARLISED FILM.
ELEGANT & OPAQUE.

Pearlised PVC Blister Films

Pearlised PVC blister films add a soft, satin-pearl sheen to blister and thermoformed packs. The opaque film shields light-sensitive contents and gives packaging a premium, differentiated appearance.

KEY FEATURES

- Soft pearlescent satin appearance
- Opaque film for light-sensitive contents
- Good thermoforming behaviour
- Non-toxic, tasteless and odourless
- Premium, differentiated pack design
- Thickness customised on request
